

Saurav Kendre

UI/UX Designer · 7y

Mumbai, IN • +91 9673318441 • [LinkedIn](#) • <https://kendyux.online/> • sauravsunilkendre@gmail.com

Summary

UI/UX Designer with 7 years of experience turning complex workflows into intuitive, high-quality products across SaaS and consumer domains. Operates as a sole IC delivering the output of a 2–3 person team, driven by deep AI experimentation that has measurably sped up ideation, prototyping, and QA. Strong in interaction design, design systems, and accessibility across Web, iOS, and Android. Currently pursuing an ePG Diploma in Interaction Design at IIT Bombay.

Work Experience

Lead UIUX Designer

May 2025 - Current

LogiNext Solutions

- Led end-to-end UX/UI across all products as sole IC designer at a Logistics SaaS company.
- Defined IA, interaction models, task flows, wireframes, and high-fidelity designs.
- Cut design process time by 70% by integrating AI tools across ideation, prototyping, and visual QA.
- Designed AI-native features for logistics workflows: translating ML outputs into clear, operator-friendly interfaces.
- Building a AI-ready design system with patterns for conversational UI, dynamic content, and adaptive components.
- Managed pre-deployment UATs, reducing design inconsistencies and post-release issues.
- Collaborated with PMs and engineers to ensure accurate implementation across web and mobile.
- Upheld accessibility standards and strong visual principles across typography, color, and layout.

Dy. UIUX Design Manager

April 2022 - May 2025

Jio Platforms Limited

- Led UX/UI design for B2C, B2B SaaS and consumer facing projects for mobile, web and desktop platforms.
- Created and maintained design systems for the projects.
- Owned interaction design, IA, wireframes, prototyping and visual design for web, mobile and desktop platforms.
- Improved design process efficiency by 15% through structured workflows and AI copilot.
- Implemented a design review process to maintain visual and brand consistency.
- Experienced working in Ad-tech, e-commerece, AI, dashboards, data visualisation, communication apps, OS design.
